Their goal was to return the series to a realistic type of gameplay while still keeping the graphical fidelity of previous versions. Among the new features in FIFA 14 are new animations for players, referees, teams and the ball, and they hope that it would be a more realistic game. Features FIFA 14 features Real Player Motion Match Engine (RPM), an innovative and revolutionary new engine that provides everything a gamer needs to experience sports like never before. RPM provides a truly authentic and realistic transfer of real-world human motion into the virtual sporting world, while expanding on the momentum from the previous titles. RPM is also a 'lightning fast' solution in comparison to other engines and is able to interact with all elements of the game real-time on the fly, while offering a variety of control options. Unlimited Team Number/Player. Dynamic Formation. True Physically-Based Player Trajectories. Goalkeeper mobility. Macros (Skill Shots, Saves, Dives, Blocked Shots, Etc.) Ball Control. Real-Player Ball Physics. True Champions League (European only) Hybrid Controls (manage the game using traditional way and through gamepad) 32 "Team Tiles" on the Pitch. 32 Players (16 per Team). 4-Team Squads.
